Lost in her grief, she drifts in a sea of pain and hurt. Cam comes home from serving overseas in the military, wracked with survivor's guilt and suffering from PTSD. Imagine Audrey's shock when she realizes how much Cam looks like her dead boyfriend.The emotions and feels in this book run the gamut - Cam is angry that his brother is dead, angry at the world, and unable to deal with the current hand life has dealt him. Cassie (the sister) feels immense guilt over the accident itself. And Audrey is a broken, wounded woman who doesn't know what to do with the feelings she is developing for the angry man that lives next door to her.With great secondary characters in their mother (who is a bit standoffish at first; I didn't like her initially but warmed up to her as the story went along), and Trevor, the man in Cassie's life who disappeared for a year - this is a well-told story about second chances and finding love again.0 of 0 people found the following review helpful. Amazing readBy M. Thompson (Chelle)As much as I loved Glenna's MC books, I do love it when she does something different. When it rains was amazing. A story of loss and love like no other. My heart broke but was put back together. I truly loved each and every character in this story. This was definitely a story I could not put down and had to know what was going to happen. This is definitely a story that I would recommend to everyone because it is a must read.

When it rains, all we need is each other. We don't have to think, or talk about anything at all. When I'm with him, time seems to stand still. I shouldn't want to be with him, but fate is plotting against me. He's my deceased boyfriend's brother. A man hardened by the war he fought in. I have battles of my own to wage, but he won't let me face them alone. The only things standing between us are my broken heart and his loyalty to his brother.
